*Dr. A.P.J. Abdul Kalam*

Dear parents, teachers, and students, I extend to you all a very warm welcome to St. Aloysius Senior Secondary School Polipathar's Website. I am sure that information and details given about the school in the website will assist all those who visit this website to understand about this great institution and its functioning in fulfilling the vision and mission of the school. At this time of digital revolution its mandatory for us to move to provide information and activities of the school through the digital medium moving from the traditional way of communicating. As you navigate your way through the site discovering what we have to offer, you will find answers to the many preliminary questions you may have about our school, our academic programme and student life.

We are really blessed with talented and dedicated teachers who mould our children into better human beings for tomorrow not only through mere lessons from the text books but also giving them opportunities in various fields to bring out their innovation, talents and creative ideas. Inspired by our school motto: '*Virtus in Arduo*'- *Excellence Through Hardship* the students are offered various types of curricular and co-curricular activities to bring out the best in them by disciplined hard work and determination. And we always believe in providing safe and supportive environment in the school so that the students grow as strong, confident, creative, supportive and excel in both academics and as well as into a well-behaved individual who knows not only his strength but also helps others who are weak as much as possible.

I appreciate and acknowledge the cooperation and contribution of the Teachers, Parents and the Students and wish working together with one aim of forming the future citizens into a good human being. I hope this website will give and guide you to get the glimpse of our school and activities.

I wish the visitors all the best. God bless you.
