

# Bishop's Message

In this era of competition the world scenario is changing with speed and education system is no doubt a major part of it. As we all know the education is tool which alone can inculcate national and cultural values among the younger generations. In order to improve the social face of our country it is very important to educate our younger generations.

The school website is a platform for the students to express their creative pursuit which develops in them originality of thought and perception. The content of the website reflect the wonderful creativity of thoughts and imagination of our students. Academic excellence along with co-curricular and extra co-curricular activities completes the process of education. It also gives me a great pleasure that St. Aloysius Senior Secondary School is progressing in its endeavours.

**Bishop (Gerald Almedia)**
